SKILLS

Programming Languages:	JavaScript, HTML5, CSS3
Frameworks:	React.JS, Bootstrap, Material UI
Other Tech:	MySQL, API, Azure, Git

EXPERIENCE

Freelance - Self Employed
Frontend Web developer   October 2023 - Present

- Crafted 7 appealing and functional websites tailored to client's needs using HTML, CSS, and JavaScript from scratch.
- Led 2+ projects of redesigning and implementation of a website using React.js, resulting in improved user experience and enhanced performance.
- Proficient in WordPress customization, leveraging diverse plugins to enhance website functionality, and skilled in hosting management with Hostinger.

Tata Consultancy Services - Asst. System Engineer
Frontend Web developer   April 2021 - January 2023

- Created responsive user interfaces using HTML5 and CSS3 to achieve desired layouts, typography, and visual effects driving a 20% increase in user engagement
- Collaborated with cross-functional teams to translate 8+ design mock ups into pixel-perfect, reusable, extensible, flexible front-end experiences that integrate seamlessly with back-end code.
- Conducted 300+ hours of unit testing, debugging and cross-browser compatibility to deliver bug-free web applications within tight deadlines, ensuring client satisfaction
- Build image sliders, quiz applications, note-taking functionality, calculators, and a suite of additional features to elevate frontend performance and user experience.

PROJECTS

Oriole Entertainment - Comedy Event Booking App   *React.JS, JavaScript*

- Successfully transformed HTML/CSS/JS website into a React.js application from scratch, incorporating modern web development principles and tools reducing the loading times by 30%.
- Employed Material UI components, icons, and grid system alongside flexbox for responsive design, ensuring seamless functionality across all devices.
- Leveraged React.js features such as useState, useEffect, and routing to enhance interactivity and manage state effectively for a smoother user experience.

Cozyfeelz - Single Product App   *JavaScript, HTML, CSS*

- Developed a mobile-targeted shopping website entirely from scratch using HTML, CSS, and vanilla JavaScript, focusing on optimal mobile user experience.
- Implemented custom JavaScript functionalities including an image slider, a review section slider, delivery time function, interactive questions section with tap-to-view capability, a sticky item cart positioned at the bottom of the page, and a mobile-responsive menu bar.

Weather App   *API, JavaScript, HTML, CSS*

- Engineered a weather display project featuring global city forecasts fetched via API.
- Revamped a visually striking weather website with real-time displays of wind speed, humidity, temperature, country information, and implemented background changes to reflect current weather conditions in the area.

EDUCATION

University Institute of Engineering and Technology, MDU   Rohtak, Haryana, India
B.Tech Civil Engineering   Aug 2015 - July 2019

ACHIEVEMENTS

- Awarded a free-of-cost overseas trip by my school in acknowledgment of academic achievement.
- Received the **Spot Award** and **Employee of the Month** award during my tenure at TCS.

CERTIFICATIONS

- RESPONSIVE WEB DESIGN - *freecodecamp*
- AZURE FUNDAMENTALS AZ-900 - *microsoft certified*
